

Sale Name: Industrial Supply Overstock Auction-7

LOT 1209 - 3M Sanding Sheet: 9 in W x 11 in L, P60 Grit

Description

In Packaging?: Yes

Damaged?: Unknown

Brand: 3M

Model: 02116

General purpose sandpaper sheets optimized for use on all surfaces have an open-coat aluminum oxide abrasive applied to a paper backing. Aluminum oxide is a strong, sharp, and durable abrasive that penetrates the work surface and withstands heat and high speeds. Open-coat abrasives have grit on about 50% of the surface leaving space between the abrasive grains to prevent swarf from clogging the surface which keeps the workpiece cooler. The paper backing provides a smooth, flat surface to provide consistent pressure across the work surface. Compatible surfaces and substrates include paint, plastic, composites, gelcoat, fiberglass, and carbon steel. Brand: 3M Series: 346U Manufacturer Part Number: 02116 Overall Width: 9 in Overall Length: 11 in Abrasive Material: Aluminum Oxide Abrasive Grade: Coarse Grit: P60 Backing Material: Paper Backing Weight: D Coating Coverage: Open Resistance Properties: Load Color: Gold Sheet Width x Length: 9 in W x 11 in L Sheet Grit: P60 Backing Material Type: Paper Backing Material Weight: D Backing Material & Wt: D Wt Paper Sheet Dimensions: 9x11 Abrasive Grit: 60 / P60 Abrasive Type: Coated Grade: Coarse Abrasive Type - Grit: Coated 60 / P60 Display Qty: 500 Display Sell UOM: PK.

Quantity: 1
