**Sturdy Stainless Steel Build** This stainless steel cat litter box is made of high-quality stainless steel, which is extremely durable and easy to clean. It can resist rust and scratches from cat claws, and also prevent odors from lingering. Its sturdy construction ensures that the cat litter box can be used for a long time without being easily damaged, and reduces the need for frequent replacement. **Maintain a Clean Litter Area** This metal cat litter box with lid is designed to meet the needs of cats, providing a private space for cats while effectively preventing cat litter from being scattered. The 30 angle cat litter filter inside the cat litter box also works well, effectively preventing cats from easily pouring cat litter out of the box. This design helps keep the surrounding area tidy and reduces the frequency of cleaning. **Ample Space for Cats** Measuring 23.2 x 15.7 x 12.2 inches, this XL extra large stainless steel

litter box has plenty of room for cats of all sizes to move around freely and ensure they are comfortable during their potty breaks. The large litter box holds enough litter for an adult cat for 30 days. No need to worry about changing the litter when you leave home. Easy to Clean & Non-Sticky The stainless steel bottom is non-stick, rust-proof and easy to clean. Simply rinse with water to easily flush away waste. Unlike traditional plastic cat litter boxes, this stainless steel cat litter box will not absorb stains or odors, keeping the indoor air fresh. It always provides a good and healthy place for your cat to live comfortably. Urine Leak Prevention The top lid of this metal cat litter box is tightly combined with the stainless steel box through an upgraded lock to ensure that the urine is retained in the cat litter box, keeping your home clean and odor-free without worrying about the risk of urine leakage. We also come with a full metal cat litter scoop to help you thoroughly clean the cat litter box. (Cat litter mat not included)
